

Education

| | |
|--|----------------|
| PhD, Computer Science and Engineering, University of Washington Advisor: Dr. Siddhartha S. Srinivasa | 2017 – Present |
| MS, Robotics, Carnegie Mellon University [Transferred to UW] Advisor: Dr. Siddhartha S. Srinivasa | 2016 – 2017 |
| B.Tech, Mechanical Engineering, Indian Institute of Technology Madras Advisor: Dr. Arun D. Mahindrakar | 2012 – 2016 |

Experience

| | |
|---|---|
| Personal Robotics Laboratory University of Washington | Graduate Research Assistant 2017 – Present |
| With a research interest that lies at the intersection of planning and learning, I work on search-based geometric motion planning and decision-making under uncertainty in application to robotics. | |
| Personal Robotics Laboratory Carnegie Mellon University | Graduate Research Assistant 2016 – 2017 |
| Studied the application of double quaternions for solving the inverse kinematics of high DoF robot manipulators, specifically the Kinova Jaco. | |
| Dynamics and Control Laboratory Indian Institute of Technology, Madras | Undergraduate Research Assistant 2015 – 2016 |
| My Bachelor's Thesis investigated the application of the Leapfrog algorithm and Pontryagin's Maximum Principle to generate time, distance, and fuel optimal trajectories for mobile robots. | |
| Systemantics India Pvt. Ltd. Bangalore | Summer Research Intern 2014 – 2015 |
| Modelled the dynamics of a hybrid manipulator Modelled the dynamics of a hybrid manipulator for trajectory tracking and control in performing industry-precision manipulation tasks. | |
| Raftar Formula Racing Indian Institute of Technology Madras | Vehicle Dynamics Engineer 2013 – 2014 |
| Designed and manufactured the suspension system of a Formula-style racecar for Formula Student Combustion (FSC) Germany, 2014. | |

Publications

- C1 **Lazy Receding Horizon A* for Efficient Path Planning in Graphs with Expensive-to-Evaluate Edges**, A. Mandalika, O. Salzman and S.S. Srinivasa. In *International Conference on Automated Planning and Scheduling (ICAPS)*, 2018.
- C2 **Numerical and Experimental Implementation of Leapfrog Algorithm for Optimal Control of a Mobile Robot**, A. Vamsikrishna, Arun D. Mahindrakar and Shaligram Tiwary. In *International Control Conference (ICC)*, 2017.

Teaching and Invited Talks

| | |
|--|-----------|
| Graduate Teaching Assistant, University of Washington Advanced Robotics: Manipulation Algorithms | Fall 2017 |
| Guest Lectures, Lakeside High School, Seattle Introduction to Robotics | Fall 2017 |

Technical Skills

| | |
|---|---|
| Languages: C, C++, Python, MATLAB, L ^A T _E X | Libraries and Tools: ROS, OMPL, OpenCV |
|---|---|
